

TRP CB & Multi-Band Antennas

TRP CB & Multi-Band Antennas are made in the USA to withstand tough environments. The manufacturing process includes embedding the antenna into the base, resulting in excellent flexibility and longer product life.

■ Features and Benefits:

- ★ **“Made in the USA”** Premium quality materials for durability you can count on.
- ★ **VibraSorb® Anti-Breakage Design** The antenna wire is embedded into the antenna base for maximum life.
- ★ **Multi-Band Reception** Besides receiving Citizen-Band signals, these antennas receive Weather-Band (TA0002 – TA0009) and AM/FM, cellular phone (TA0001) frequencies.
- ★ **1000 Watt Rating** Power-rated for use by professional drivers.
- ★ **¾ Wave** The most efficient design for max. reception & transmission.
