

TRP Drop Fenders

TRP is proud to offer a line of fenders. It's no surprise that TRP is among the first to offer a variety of configurations of drop fenders. This offering will continue the quality customers have come to expect from TRP. These stainless steel fenders measure 24" wide and are available in quarter fender, half tandem, and full tandem. TRP also offers specific brackets to mount these fenders. Kits cover all available styles and mount one pair of fenders.

■ Features & Benefits:
