

### POLY RIB BELTS

#### FEATURES & BENEFITS

- » Manufactured to SAE specifications by using specially blended rubber
- » Provides exact length specifications for maximum life of the belt
- » Rubber compound provides excellent heat, wet-slip, noise and oil resistance

#### RELATED PARTS

- » Tensioners
- » Idler Pulleys

#### POLY RIB BELTS

TRP Poly Rib Belts are used to transmit power in a multitude of applications. This “diesel grade” belt features more cords per inch than similar sized conventional light-duty belts in order to meet higher torque and power pulses found in today’s demanding diesel engines. TRP Poly Rib Belts are constructed with a reinforced rubber compound to ensure long life.
