## Wheel Seals

### Wheel Seals

TRP oil bath seals are specialized oil bath seals designed for bus, truck, and tractor axles. Four basic unitized one piece designs featuring metal or Nitrile-covered OD with ground surface and front chamfer will be offered, each interchangeable with industry standard specifications.

The TRP one-piece design enables efficient service with one-step installation. The seals are designed to keep contaminants at a distance, while lubrication of the rubber lip remains intact, decreasing friction and increasing seal life.

#### ■ Features and Benefits:

- ★ Metal-to-metal contact between seal O.D. and hub bore for a tight fit and long life.
- ★ Completely comparable and interchangeable with major seal brands to eliminate need for duplicate stocking.
- ★ Independently tested in the U.S. to confirm equal performance and durability with recognized brands.
- ★ Installs with standard tooling for ease of servicing.

#### ■ Popular Trailer Application Wheel Seals:

TRP Part	Axle Model	Shaft	Bore	Seal O.D.	Width	Lip Material
SW42623	Fruehauf, Rockwell (TP Series)	4.25	6.009	6.014	0.984	Nitrile
SW46305	Dana, Rockwell	4.625	6.001	6.006	1.063	Nitrile
SW370025A	Dana, Rockwell	4.625	5.999	6.008	0.84	Nitrile
SW370065A	Fruehauf, Rockwell (TP Series)	4.25	6.008	6.022	1	Nitrile

#### ■ Popular Tractor Application Wheel Seals:

TRP Part	Axle Model	Shaft	Bore	Seal O.D.	Width	Lip Material
SW35066	Front Axle – All Makes	3.5	4.842	4.847	0.904	Nitrile
SW38780	Drive Axle – Ford, Navistar, Volvo	3.875	5.691	5.696	0.938	Nitrile
SW42672	Drive Axle – Mack	4.25	6.254	6.259	1.25	Nitrile
SW47697	Drive Axle – All Makes	4.766	6.311	6.316	1.125	Nitrile
SW370001A	Front Axle – All Makes	3.5	4.842	4.848	0.925	Nitrile
SW370003A	Drive Axle – All Makes	4.765	6.311	6.318	1.078	Nitrile
SW370023A	Drive Axle – Ford, Navistar, Volvo	3.875	5.69	5.706	0.875	Nitrile

**Experienced. Reliable. Tested.**
